

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Presentation of the October Community Improvement Award

MEETING DATE: October 6, 1999

PREPARED BY: Community Development Director

RECOMMENDED ACTION: That the Mayor present both RES and Apache Plastics, a division of CertainTeed Corporation, with the Community Improvement Award for October 1999.

BACKGROUND INFORMATION: RE Services, an electrical parts manufacturer located at 400 S. Beckman Road, was nominated for the Community Improvement Award for the landscaping improvements that they made along the frontage of their property. In reviewing this nomination, Community Improvement Staff noted that the adjacent industrial property at 300 S. Beckman Road, occupied by Apache Plastics, was also notably improved and well-maintained.

The landscaping improvements made by both RE Services and Apache Plastics have made a drastic improvement in an industrial area that would otherwise be overlooked, except for the fact that it is adjacent to State Highway 99.

Staff's recommendation to the Eastside Improvement Committee was to amend the nomination of RE Services to include Apache Plastics. The Eastside Improvement Committee unanimously approved that recommendation, thereby recognizing both properties for their worthy efforts by awarding the Community Improvement Award for the month of October 1999, to RE Services and Apache Plastics, as joint recipients.
